

CoreTechTalk @ URTeC

UNCONVENTIONAL RESOURCES TECHNOLOGY CONFERENCE

 **Tuesday, June 10th**

 **11:30 AM – 1:30 PM,**
buffet lunch provided

 **Marriott Marquis Houston Hotel -**
Hunter's Creek Room (located across
the street from the Convention Center)

"Core Lab: New Technology Updates"

Join Core Lab at URTeC for a high-level overview of our latest technologies, including core-based reservoir evaluation, geochemical production allocation, tracer innovations, permeability estimation, and regional petrophysical modeling. A Q&A with our experts will follow the session.

Presentation Titles

"Novel Method for Wellbore Deployment of Chemical Tracer Rods"

"New Core-Based Methodology for Evaluation of Unconventional Reservoirs"

"Geochemical Methods Applied to Production Allocation in the Permian Barnett and Woodford"

"What's and Why's of 3AB Testing"

"New Horizons: Leveraging Regional Petrophysical Models for Opportunity Development"

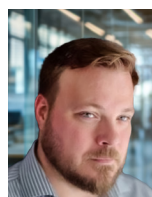

"Complete Crush Profile – A Novel Approach to Permeability Estimation"

Jonathan Antia
Geological Advisor
Integrated Reservoir Solutions

Stephen Drylie
Petrophysics & Engineer Manager
Integrated Reservoir Solutions

Carl Merkt
Senior Petrophysicist
Integrated Reservoir Solutions

Erik Bijowski
Account Manager
ProTechnics

Chad Senters
Senior Technical Advisor
ProTechnics

Bryan Drebon
Engineering Advisor
Stim-Lab

Moderated by:
Buddy Woodroof
Senior Technical Advisor
ProTechnics
