

ProTechTalk @ ATCE

“Refracs, Longer Laterals, EOR, Tier II Reservoirs, Mineral Extraction: Where Should We Go Next?”

Join Core Lab and a distinguished panel of industry experts at the SPE Annual Technical Conference and Exhibition (ATCE) for an enlightening discussion of what these experts view as the next steps in resource development designed to maximize the value of existing portfolios. How would they prioritize the available developmental options to ensure optimal reservoir exploitation. Would it be to employ additional technologies designed to more fully drain the completed intervals, drill longer offsets, pursue Tier II reservoirs, or look to mineral extraction as a value-add option for existing intervals?

Discussion questions will be posed to the panelists, and questions from the attendees are also welcomed.

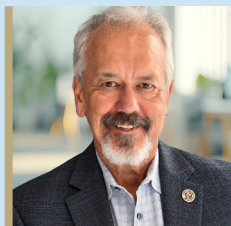

ProTechTalk Panelists

Bharath Rajappa
Principal Completion Engr
CNPC USA Corp.

Doug Orr
Completions Advisor
Ring Energy, Inc.

Lyle Lehman
President
Frac Diagnostics, LLC

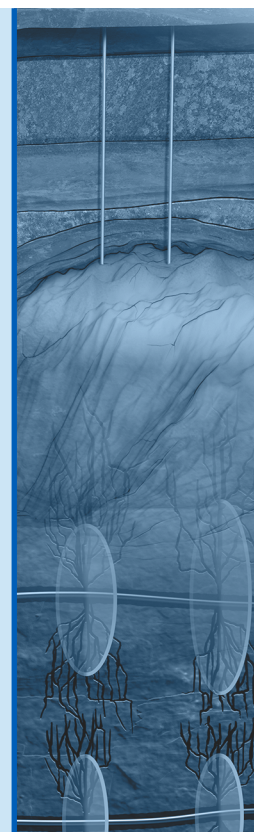

Tyler Thomason
President
CT Evolution

Chris Squires
Regional Engr.Advisor
ProTechnics

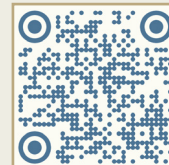

Moderated by:
Buddy Woodroof
Sr.Technical Advisor
ProTechnics

Date: 10/21/26 | Time: 11:30am - 1:00pm
Lunch will be provided
Location: Hilton Hotel
(across from George R. Brown Convention Center)
ATCE registration not required
